We understand Credit as:

- removal of data inconsistency on the basis of the analysis of consumer credit collateral
- establishing collateral for private mortgage loans in order to issue mortgage bonds
- preparation of collateral releases for closed consumer credit loans
- research and assignment of documents in the incoming mail

For our Clients:

- we process 100,000 financing activities every month
- we provide the basis for the use of attractive refinancing options
- we actively reduce the risk of incorrect credit data

Example: Preparing collateral for issuing mortgage bonds
